Academic year and quarterly reports

The Board regularly receives a two-year pass rate report which captures the first-time pass rate by program for a two-year window. Annual pass rate or quarterly pass rate would be looked at only if below the minimum expectations of 60% in a given time period.

Q11 5. What do you see as important criteria for indicating practice readiness of the program's nurse graduates?

5. What do you see as important criteria for indicating practice readiness...?

First time pass rates NCLEX

We do not have practice readiness criteria.

Employer Feedback

Clinical performance rubrics in the program and upon graduation: preceptor/mentored transition to practice

---

NCLEX pass rates, focused client experience required in NC.

NCLEX and achievement end of program competencies (how well written and documented)

Employer and graduate satisfaction surveys, passing the NCLEX, graduation from a program with EBP woven into the curriculum and incorporation of key areas of weakness such as communication, professionalism

---

Clinical Judgment

Ability to meet entry-level competencies with adequate orientation to a specific setting. Demonstrating all program outcomes at the passing level.

Decision making ability, clinical judgement, and effective communication skills

---

The progression to success on NCLEX, learning outcomes appropriate to scope of practice and standards e.g. AACN, does the program follow policies and procedures

---

NCLEX pass rates

-

Satisfactorily meeting School of Nursing overall program objectives; Success on end of program diagnostic testing (HESI, ATI, Hurst Review, etc.), if offered; NCLEXRN Pass Rates; Employer satisfaction surveys; Graduate/alumni satisfaction surveys......

Adequate and Appropriate Clinical, ability to pass NCLEX

Employer satisfaction with graduates practice readiness

NCLEX scores, pursuant to s.464.019, F.S.

Q12 6. If your BON or other state agency collects graduation rates of prelicensure nursing programs, would you be able to share them with our committee?

#	Answer	%	Count
1	Yes	48.28%	14
2	No	6.90%	2
3	Graduation rates not collected	44.83%	13
	Total	100%	29

Q10 If Yes, please specify what time period you allow for graduation rates; i.e., IPEDs uses 6 years from admission

If Yes, please specify what time period you allow for graduation rates; i.e...

Within 100% and within 150% of expected graduation

Graduation rates are reported per cohort for   enrollment

Program accrediting agency standards

The way these stats are collected by programs and reported to the Board vary and we accept various formulas. The most commonly used is completion within 150% of the time the program is expected to take.

Employment rates and employer satisfactions have been difficult to obtain via survey requests. Return answer rate is very low

This is provided in the annual report, but schools of nursing in Iowa have a difficult time collecting this information. Data may not be reliable as it may not be accurate.

Q22 Additional Comments:

Additional Comments:

The Vermont BON is investigating adopting accreditation by a nationally recognized organization to replace some of our approval practices.

While this is looked at during survey visits, it is not collected annually or for each graduating group on an on-going   basis.

Am hoping all my comments on #5 are captured

Mississippi Institutions of Higher Learning, by state statute, regulates registered nursing education programs, not the Board of Nursing. Question #7 comment: Schools of Nursing collect employment rates as required by the national nursing accrediting body.

Please share the results of this survey via my email if possible. Thanks!
