

NCSBN 45

SHINE THROUGH

SHAPING A BRILLIANT FUTURE

2023 ANNUAL MEETING AUG. 16-18, 2023 | CHICAGO

What do they all have in common?

Disruptions Drive Us Forward

So, Let's Consider Ai

A journey from the present to the future

- Challenge
- Ambition
- Impact

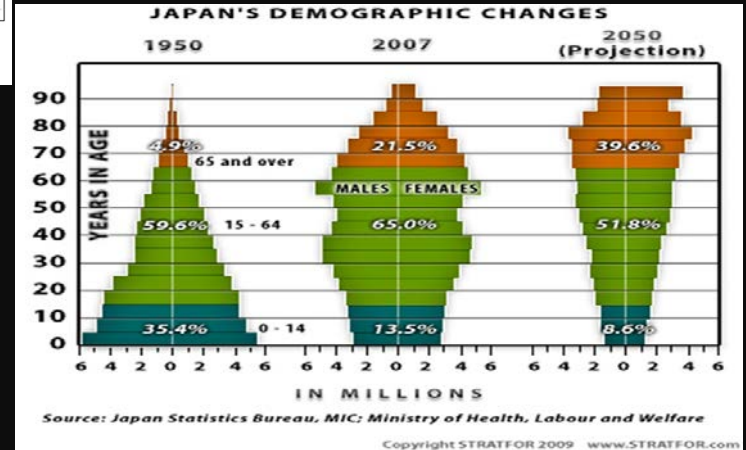

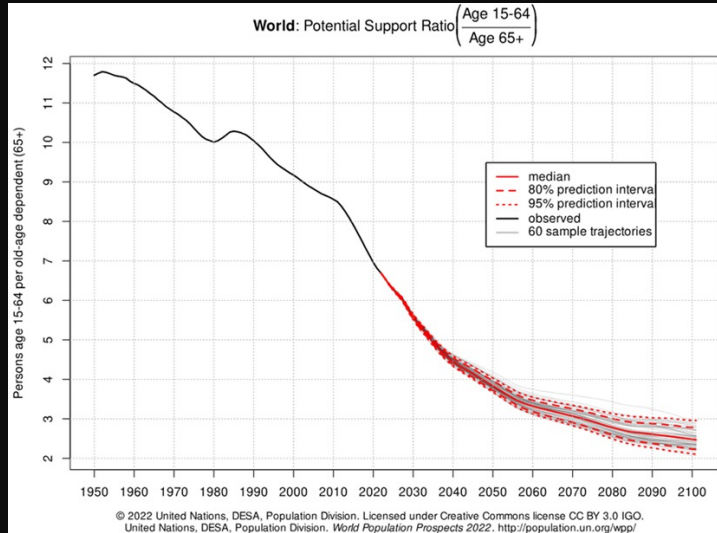

The Knee of the Curve

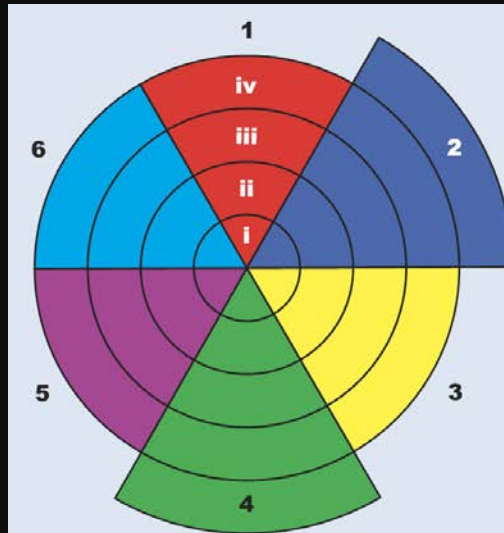

Don't Panic

Demographics in Context

Knowledge and Skills Frameworks (Benton 2003)

Knowledge and Skills Framework Core dimensions	
Dimension	Title
1	Communication
2	Personal and people development
3	Health, safety and security
4	Service development
5	Quality
6	Equality, diversity and rights

Each **dimension** can have one to five level descriptors indicated by the blocks of colour.

For each dimension a **succinct overview** is available which will include a brief description of the dimension, that is: This core dimension relates to effective communication in whatever form it takes place. Then followed by additional relevant information, which in the case of communication includes:

- People who can be involved.
- Obstacles that may be encountered.
- Methods of communication.
- Relevant legislation.

Each of the four levels relating to communication are then broken down further offering:

- **Specific indicators** of the knowledge and skills required to demonstrate competence at the particular level.
- Provision of **examples of the application** of the knowledge and skills.
- **References** to any occupational standards, subject benchmarks, professional regulatory requirements, relevant legislation, and so on.

For each **level** there is high-level description, for example, in relation to 'communication':

- i** Establish and maintain communication with people on routine and operational matters.
- ii** Establish and maintain communication with people about routine and daily activities, overcoming any differences in communication between the people involved.
- iii** Establish and maintain communication with individuals and groups about difficult and complex matters overcoming any problems in communication.
- iv** Establish and maintain effective communication with various individuals and groups on complex and potentially stressful topics in a range of situations.

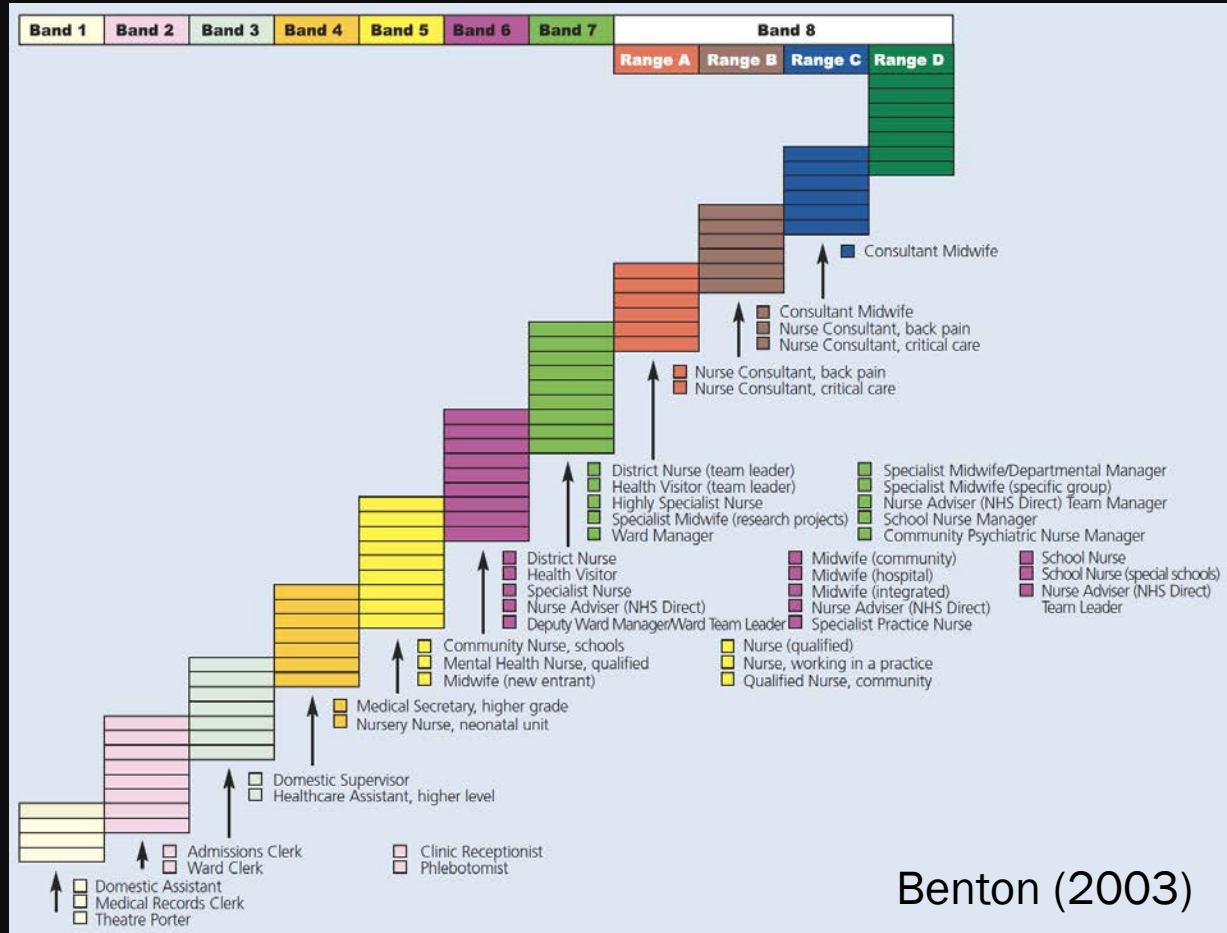

Knowledge and Skills Framework

(Benton 2003)

Knowledge and Skills Framework outline						Graphic
	1	2	3	4	5	
Core dimensions	1 Communication		X			
	2 Personal and people development		X			
	3 Health, safety and security		X			
	4 Service development				X	
	5 Quality			X		
	6 Equality, diversity and rights			X		
Role specific dimensions	7 Assessment of health and wellbeing needs		X			
	8 Addressing individual's health and wellbeing needs			X		
	13 Production and communication of information and knowledge		X			
	19 Leadership			X		
	21 Management of physical and financial resources	X				

Knowledge and Skills Frameworks

Benton (2003)

A solid foundation

- Strategic Initiatives
- Leading Regulatory Excellence Worldwide
- Measured Risks & Bold Actions

Seven windows of opportunity

- Education
- Governance
- Fitness for Practice
- Technology and Information
- Purpose and processes
- Licensees & Registrants
- Workforce

Seven windows of opportunity

- **Education**

- Governance
- Fitness for Practice
- Technology and Information
- Purpose and processes
- Licensees & Registrants
- Workforce

Meeting Student Needs

- Competence Based
- Time Variable
- Avatar Supported
- Global Expertise on Speed Dial
- Networked Progression

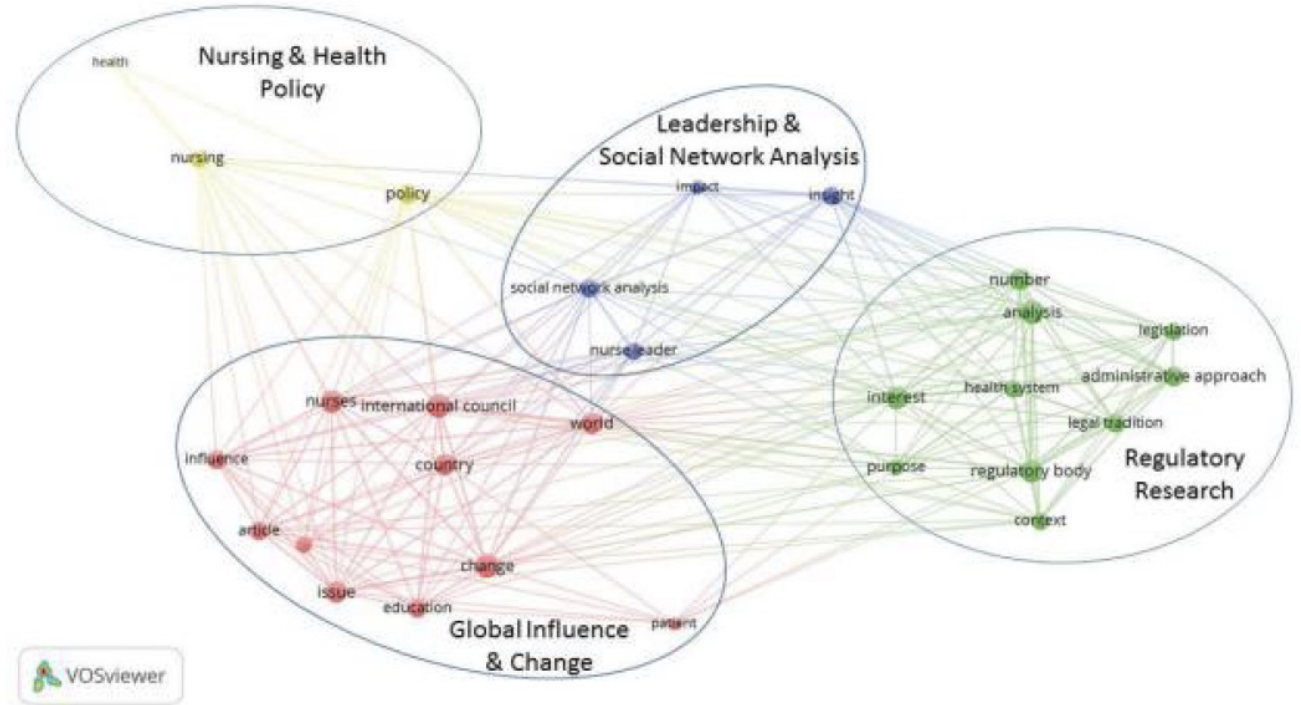

NGN QUANTUM

- Wider usage
- Levels of Ability
- Virtual environment
- Real time formative scoring, feedback and targeted learning
- A Career long record
- Ongoing specific CPD
- Mapped to future career opportunities

NGNQ - Job Specific Testing

Figure 1. Co-word analysis of the author's publications

Seven windows of opportunity

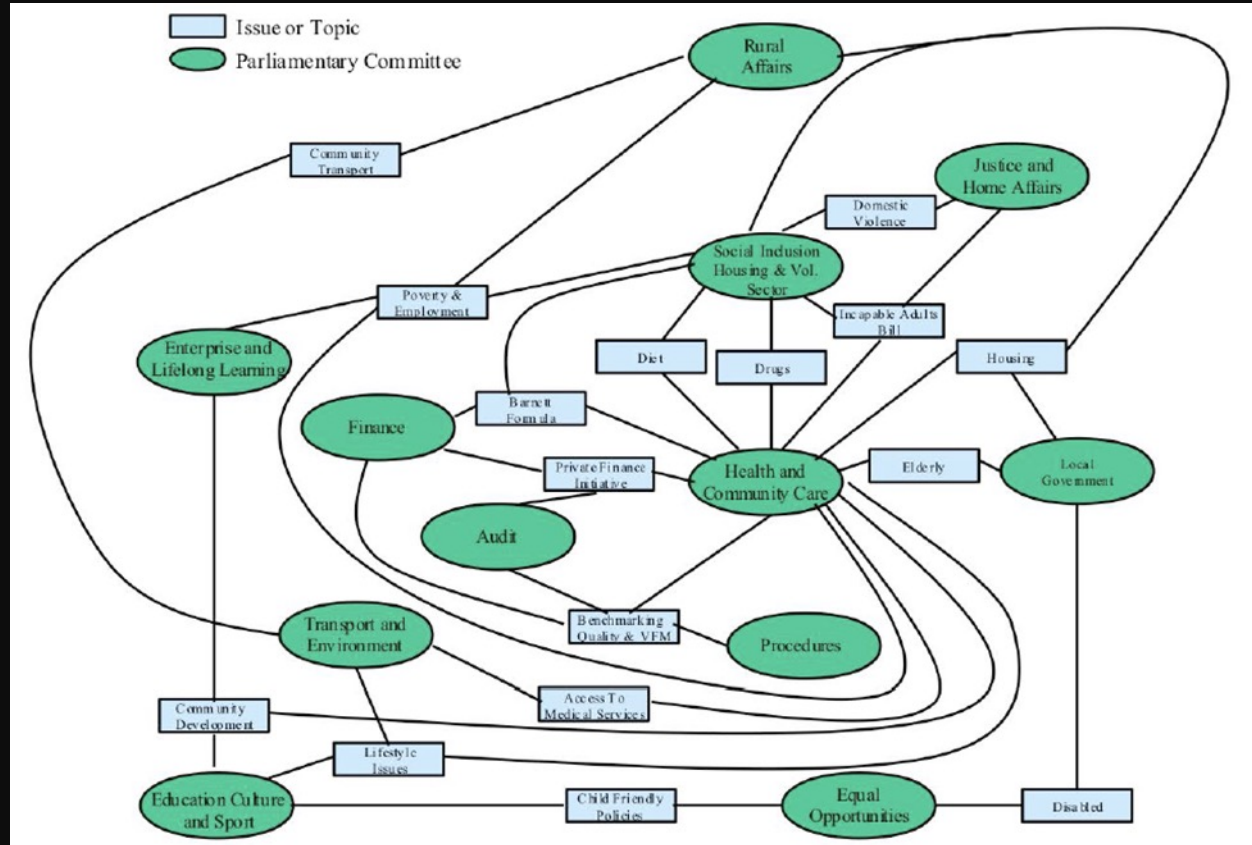

- Education
- **Governance**
- Fitness for Practice
- Technology and Information
- Purpose and processes
- Licensees & Registrants
- Workforce

Governance

- A global community of excellence efficiency and support

Navigating Complexity (Benton, 1999)

Navigating Complexity (Today's Reality)

From One NCSBN to One Global Community of Regulators

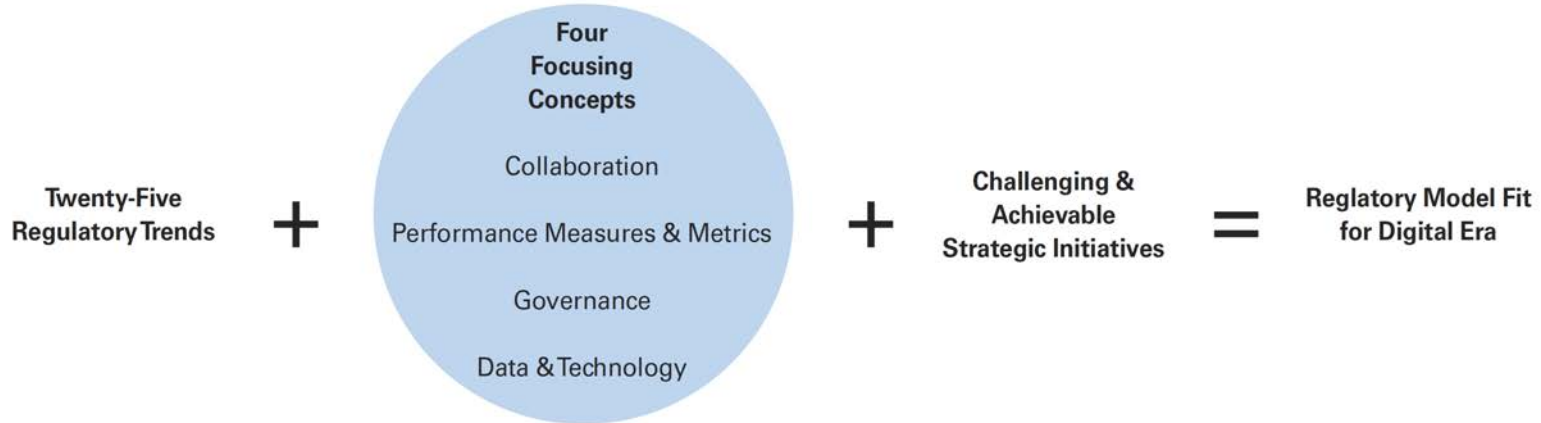

Technology

The Skills of Regulators

Representation of work completed and work to be continued to address Regulation 2030

Key Skills

Communication, Change Management, Performance Management, Quality Improvement, Policy, Board Development, Strategic Partnering, Data Analytics, Economics

Five Basic Skills for Regulators

- Prompt engineering
- Brand reinforcement
- Data Visualization & Story Telling
- Creative AI solutions
- Intuitive understanding of current Ai Limitations

The Chief Officers & their teams

The Presidents & their Boards

My Wife and my children

Words of Wisdom

- God grant me the serenity to accept the things I cannot change,
- the courage to change the things I can,
- and the wisdom to know the difference.

Reinhold Niebuhr
