Introducing the first of its kind, the NCSBN Global Regulatory Atlas, now available free of charge. The Global Regulatory Atlas provides detailed information about regulatory bodies across the globe, including their nursing population statistics, licensure or registration requirements, levels of nursing, education, and much more.

The Atlas is easy to use with in-depth information just a few clicks away. You could explore global metrics. Jurisdictions could be compared and contrasted. You can save and download reports for future use. Charting the nursing regulatory landscape, this comprehensive, online compendium of nursing regulation worldwide is an invaluable resource for regulators, nurses, educators, researchers, and health care administrators.

Created with the assistance of health care regulators worldwide, the NCSBN Global Regulatory Atlas puts information about nurses across the globe right at your fingertips. Don't miss the opportunity to take advantage of this vital resource free of charge. Visit [regulatoryatlas.com](http://regulatoryatlas.com).
